

BAGIT SYSTEM®
Bagit® Grocery Bag Tote

Bagit System's® Grocery Bag Tote is perfect for every task. And, it's better than every other reusable grocery bag because it's both the exact same size as the familiar brown paper grocery bag, and like that brown paper bag, it stands open even when empty for easy filling and handling. The Bagit Grocery Bag Tote has rugged, convenient top handles and it folds flat when not in use. Heavy-duty construction, and this bag stands up and holds its shape and size whether empty or full.

Features:

- Heavy duty woven, coated polyethylene fabric (min. 10% recycled content);
- Dual double stitched top handles for easy handling;
- 12 in. W x 7 in. D x 14 in. H (approximately four gallons);
- Standard color: Khaki with Forest Green handles;
- Available fully customized for your program, event, or retail outlet—colors, dimensions, features, construction, and sizing are all customizable.
