

BAGIT SYSTEM®
Bagit® Self-Standing Yard Bag

The Bagit® Self-Standing Yard Bag is an innovative, functional, durable, and attractive solution to handling yard debris. The Self-Standing Yard Bag stands fully open, even when it's empty—without a holding rack. The low and wide profile easily accommodates larger mower discharge bags and makes it easy for everyone to use. Drain holes in the bottom prevent liquid buildup, and to clean, simply hose and hang dry by the bottom handles. The durable, double-coated fabric stays good looking and cleans easily.

For residential curbside pickup programs, there's nothing better than the Bagit Self-Standing Yard Bag. Designed with input from haulers, the Self-Standing Yard Bag's 32 gallon capacity, double top handles and double bottom handles make servicing quick and easy. We've eliminated all internal folds and flaps, so the bag empties easily and completely.

Features:

- Heavy-Duty, double coated woven poly fabric, UV treated;
- Double-stitched construction with heavy duty webbing handles;
- Proprietary Design—stands open even when empty, yet fully collapsible for easy storage;
- Dual handles on both top and bottom for easy handling;
- Wide mouth for ease of use;
- Drain holes prevent fluid build-up;
- Snapped top flaps secure contents, and open quickly for easy servicing;
- Attractive and functional Mint Green standard color with Red webbing handles;
- Capacity: 32 US Gallons; Dimensions: 17 in. W X 18 in. D X 28 in. H.
