

BAGIT SYSTEM®
Bagit® "Original"

The *Original* Reusable Bag and Rack Recycling System

For over 20 years, Bagit® "Original" has set the standard for flexible intermediate collection. It's still around—and still the best—for ensuring maximum efficiency in the separation, handling, storage, and transportation of recyclables.

Racks:

- 100% Recycled Polycarbonate;
- Un-assembled racks are compact, ship and assemble easily, and require minimal storage space;
- Single-Bag Freestanding Rack: 15 in. W x 16 in. D x 29 in. H;
- Double-Bag Freestanding Rack: 22 in. W x 16 in. D x 29 in. H;
- Bagit Rack designs are patented;
- Racks and bags are sold separately.

Bags:

- 20% Post-consumer recycled content;
- Heavy duty woven polypropylene fabric;
- Drawstring with slide lock closure in top hem;
- Double stitched handle at bottom of bag for ease of servicing;
- Fully gusseted for stability, ease of handling and storage;
- Dimensions filled and closed: approx. 15 in. W x 8 in. D x 28 in. H (14 gal.);
- Available colors: Lt. Blue, Lt. Green, White, printed "Once is Not Enough—Recycle", or unprinted;
- Custom printing, with your logo to identify your recycling program, is available with 200 bag minimum per order;
- Bags and racks are sold separately.
