

BAGIT SYSTEM®
Bagit® Reusable Lunch Bag

Schools, universities, institutions, and other facilities that provide single-use lunch sacks regularly or even occasionally can potentially save serious budget dollars and contribute to environmental relief—and at the same time provide their customers with a superior product.

Produced in your colors and high-quality screen printed with your logo—our *Reusable* Lunch bag can be used for promotion and sales and can even create a profit center.

The Bagit *Reusable* Lunch Bag is made of heavy-duty waterproof-coated nylon cloth. It's washable and stands up to harsh abuse. A wide-strip hook-and-loop closure stretches fully across the mouth of the bag to hold its contents securely.

If yours is a school, campus, workplace or any other facility where folks bring their meals or where you distribute “brown bag” lunches, then, perhaps, no other program *can reduce your costs and solid waste* as efficiently and economically as the Bagit *Reusable* Lunch Bag.

Features:

- Heavy-duty, 210 denier nylon, waterproof-coated;
- Taped seams;
- Wide, full-width hook-and-loop closure lasts for hundreds of uses;
- Secure, roll-over closure seals tight and forms perfect handle for carrying;
- Just the right size: 7 3/4 in. W X 4 1/2 in. D X 14 in. Tall (about 11 in. tall when closed);
- Standard color: mid-green with mid-blue trim, no printing on bag;
- Custom fabric colors and printing available with minimum 200 piece order—please call for fabric color options.
